PURCHASE ELECTRIC COOPERATIVE)	
CORPORATION FROM NOVEMBER 1, 1990)	
TO OCTOBER 31, 1992)	

O R D E R

Pursuant to Commission Regulation 807 KAR 5:056, the Commission on December 3, 1992 established this case to review and evaluate the operation of the fuel adjustment clause ("FAC") of Jackson Purchase Electric Cooperative Corporation ("Jackson Purchase") for the two years ended October 31, 1992.

As part of this review, the Commission ordered Jackson Purchase to submit certain information and an affidavit attesting to its compliance with Commission Regulation 807 KAR 5:056. Jackson Purchase has complied with this Order. The Commission further ordered that a public hearing be held in this case but cancelled it when, after publication of notice, no interested party advised the Commission of its intention to attend.

Jackson Purchase is a distribution cooperative which purchases its power from Big Rivers Electric Corporation ("Big Rivers"). In Case No. 90-360-C,¹ the Commission found that Big Rivers incurred

¹ Case No. 90-360-C, An Examination by the Public Service Commission of the Application of the Fuel Adjustment Clause of Big Rivers Electric Corporation from November 1, 1991 to April 30, 1992, Order dated July 21, 1994.

unreasonable fuel costs which were passed on to its member cooperatives. Big Rivers was ordered to return those amounts, with interest, to its members via a monthly credit to its fuel cost over a 12-month period beginning August 1994. These credits will, in turn, be passed through to Jackson Purchase's customers through the normal operation of its FAC.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that:

1. Jackson Purchase has complied in all material respects with the provisions of Commission Regulation 807 KAR 5:056 during the period under review.

2. Big Rivers has been authorized to transfer (roll-in) a 0.40 mills per Kwh decrease in its base fuel cost to its base rates.²

3. Jackson Purchase should be authorized to transfer (roll-in) a 0.42 mills per Kwh decrease in its base fuel costs to its base rates to reflect, as adjusted for line loss, the transfer of a 0.40 mills per Kwh decrease in Big Rivers' base rates. This transfer can best be accomplished by a negative energy adder to each Kwh sold.

² Case No. 92-490, An Examination by the Public Service Commission of the Application of the Fuel Adjustment Clause of Big Rivers Electric Corporation From November 1, 1990 to October 31, 1992, consolidated with Case No. 90-360-C.

4. The rates and charges in Appendix A, attached hereto and incorporated herein, are fair, just, and reasonable, and reflect the transfer of fuel costs from the FAC to the base rate.

IT IS THEREFORE ORDERED that:

1. Jackson Purchase be and it hereby is authorized to transfer to base rates those fuel costs (as adjusted for line-loss) rolled-in by Big Rivers from its FAC to its base rates.

2. The rates in Appendix A are approved for service rendered by Jackson Purchase on and after August 1, 1994.

3. Within 30 days of the date of this Order, Jackson Purchase shall file with the Commission revised tariff sheets setting out the rates approved herein.

Done at Frankfort, Kentucky, this 22nd day of July, 1994.
